primus™

Data Access

Primus offers a portfolio of data access options to meet every business connectivity need

While speed and bandwidth requirements vary between companies, almost every business needs a reliable and scalable data access service. Select a data access option which leverages Primus' highly redundant and efficient data, IP and MPLS networks.

PRIMUS BUSINESS CONNECTIVITY ADVANTAGES

- Reliable network to keep you connected

- Scalability to meet changing bandwidth requirements

- National footprint

WHY BUSINESSES NEED RELIABLE & SCALABLE DATA ACCESS SERVICES

- Your business is growing and your access needs may change.
- You need to interconnect several offices or locations.
- Your existing connection requires an upgrade.

WHY CHOOSE PRIMUS' DATA ACCESS SERVICES?

- Redundant, multi-homed national network architecture that uses efficient IP traffic routing.
- Infrastructure that provides reliable Data Access Services to thousands of customers across Canada. National footprint provides the right fit for all bandwidth needs and budgets.

Whether you're a single site business or you have multiple locations across Canada that need to be interconnected, Primus has a wide selection of Data Access and Private Network connectivity solutions to accommodate your business needs.
