

Primus Hosted PBX ATA Quick Install Guide

WHAT YOU NEED

- A working Internet connection
- Primus Phone Adapter
- Power Adapter and Prong
- Ethernet Cable

IDENTIFY YOUR NETWORK SETUP

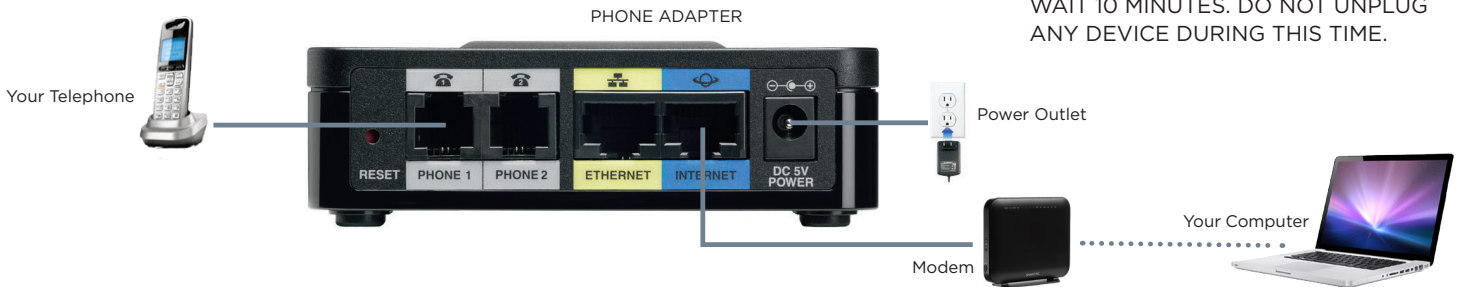

If you have a cable/DSL modem without a router, please proceed to Connecting Equipment without a Router.

If you have a cable/DSL modem with a router, please proceed to Connecting Equipment with a Router.

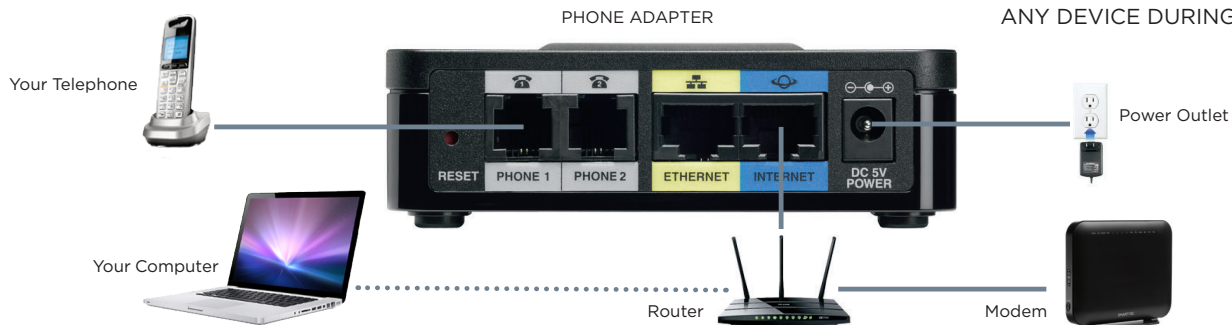

CONNECTING EQUIPMENT WITHOUT A ROUTER.

- 1 • Unplug the power cord from the back of your modem.
- 2 • Connect the Ethernet cable (provided) from your modem to the INTERNET port of the Adapter located at the back of the device.
 - Plug your phone cord into the PHONE 1 port located in the back of your Adapter.
- 3 Please wait 30 seconds between powering on each device. Power on your devices in the following order:
 1. Modem
 2. Adapter
 WAIT 10 MINUTES. DO NOT UNPLUG ANY DEVICE DURING THIS TIME.

CONNECTING EQUIPMENT WITH A ROUTER.

- 1 • Unplug the power cord from the back of your modem and router.
- 2 • Connect one end of the Ethernet cable (provided) to an available port on your router and the other end to the INTERNET port of the Adapter located at the back of the device.
 - Plug your phone cord into the PHONE 1 port located in the back of your Adapter.
- 3 Please wait 30 seconds between powering on each device. Power on your devices in the following order:
 1. Modem
 2. Router
 3. Adapter
 WAIT 10 MINUTES. DO NOT UNPLUG ANY DEVICE DURING THIS TIME.

YOUR SETUP IS COMPLETE!

Once the POWER and PHONE 1 LED's are solid green and the INTERNET LED is blinking green you are ready to start making calls.
