

No cabling, no problem.

First ever wireless IP desk phone system.

KX-TPA65 Feature / Function

Making Calls

- To make a call, take the receiver off hook and dial the number.
- You can confirm that the number was dialed correctly before calling (Predialing) by entering the number, then Off-hook.
- To clear an entire number while predialing, press **⏏** for more than 1 second.
- If an outside call is received from a phone number stored in the Handset Phonebook, the number and name of the caller will be displayed in the call log.
- To cancel dialing, press **⊗**
- If **📶** flashes, move closer to the base unit and dial again.

To Clear a Call

Press **⏏**

Ending a Call

Place the receiver on hook

Transferring a Call (Call Transfer)

You can transfer a call to another destination (extension or outside party).

To transfer

1. Press **⏏**
2. Dial the party you want to transfer to. → **CALL**
3. Wait until the other party answers to announce the transfer.
4. Place the receiver On-hook

Making a Conference Call

1. Press **⏏** during a conversation. → "Conference"
2. Dial the party you want to add to the conversation. → **CALL**
3. **CONF**

Note

- The **CONF** soft key can also be used to access the Conference function directly. To display this key, edit the displayed soft keys.
- When using a KX-TPA65, **△ / CONF** can also be used at steps 1 and 3.

Call Forwarding/Do Not Disturb

You can have incoming calls automatically forwarded to another destination. You can also have incoming calls rejected (Do Not Disturb).

To access the FWD/DND settings

1. In standby mode, press **⏏**
2. [**▲**]/[**▼**]: Select FWD **OK**
 - Fwd (All): Enable Forward All Calls (All incoming calls are forwarded.)
3. Once call forward is selected, enter a forward destination number

Retrieving to Voice Mail Messages

When you receive a voice message, "Voice MSG" is displayed, and **📧** will appear. You can check your new messages by accessing your mailbox.

1. Press and hold **📧**
2. [**▲**]/[**▼**]: Select the line on which **📧** is displayed. → **OK**
